

CSWC Operational Period Summary

0600 July 01 2014 to 1800 July 01 2014

Taken June 13, 2014 - Drought Task Force visit Yreka, Siskiyou County (Cal OES image)

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

SITUATION SUMMARY

Butts Incident, Vegetation Fire, Napa County (New)

Fire Information:

- 2,500 acres brush, 30% contained
- Rapid Rate of Spread (ROS)
- Two Local Government Type III Strike Teams
- CAL FIRE IMT 5 has been activated
- Fire Management Assistance Grant (FMAG) submitted to Cal OES and is under review.

Emergency Management:

Evacuations/Shelters

- Evacuations underway for approximately 12 residences, beginning in the 7800 block of Butts Canyon Road
- Approximately 200 homes in Berryessa Estates are being evacuated to Middletown High School
- Per the Law Duty Officer due to Fire changing directions, all residents evacuated from Berryessa Estates that were headed to Middletown High School have been held at an open field near Snow Valley Road pending further evaluation of the fire's direction.
- Evacuation Center opened at Pope Valley Union Elementary School
- Evacuation Center opened at Middletown High School

Cal OES Deployments

- Cal OES Assistant Fire Chief Salvate is on scene

Road Closures

- Butts Canyon Road and Snell Valley to the north and at Aetna Springs Road to the south

SITUATION SUMMARY

West, Vegetation Fire, Trinity County (New)

Fire Information:

- 40 acres brush, 0% contained
- Moderate to Rapid Rate of Spread
- 104 degrees, 13% RH, Wind SW @ 4, gusts to 11
- Spotting ¼ mile
- Structures Threatened
- Commitment of CAL FIRE Air and Ground Resources

SITUATION SUMMARY

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought
- Siskiyou County has submitted a reaffirmation to their Drought Resolution.
- Mountain House Community Services District (MHCSD), San Joaquin County submitted a resolution declaring a water shortage emergency, stage 1 mandatory water conservation for MHCSD.
- Lodi City council submitted a resolution finding the existence of a drought emergency The Lodi City Council requests that federal and state agencies provide financial and other assistance to residents, water suppliers, water rights holders, ranchers, farmers, business owners, and any local governments who are harmed by the drought emergency in its territorial limits to help them mitigate the effects of the persistent drought conditions.
- City of Ripon has submitted a resolution ordering mandatory water conservation measures from June 1, 2014 through October 1, 2014 with no request for assistance.

SITUATION SUMMARY

Significant Weather

Heat:

- Excessive Heat Warning remains in effect from this morning, 1000 hours 07/01/14, through 2200 hours Wednesday evening below 4000 feet for areas of Inyo and San Bernardino Counties.

Fire Weather:

- Red Flag Warning in effect from 1400 hours to 2300 hours today for portions of Trinity, Tehama, and Humboldt Counties.
- Red Flag Warning in effect from 1400 hours to 2200 hours today for portions of Lake, Shasta, Colusa, Tehama, and Glen Counties.
- Red Flag Warning in effect from 1700 hours today to 0500 hours Wednesday for portions of Modoc and Siskiyou Counties.
- Red Flag Warning in effect from 1300 hours to 2100 hours today due to thunderstorm potential and strong outflow winds for the eastern Sierra and western Nevada Sierra front; portions of El Dorado, Nevada, Placer and Madera Counties.
- A Fire Weather Watch remains in effect from Wednesday afternoon through Wednesday evening for portions of Shasta, Tehama, Trinity, Humboldt Counties.

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA REGION:

The strong and very warm ridge of high pressure aloft shifts a bit east today, allowing a weak upper-level system to move north-north-east up the west flank of the ridge. This disturbance will combine with daytime heating today to produce isolated, high-based mid-afternoon to evening thunderstorms over the counties bordering Oregon and Nevada, along with probably Trinity County. Strike activity may be on the light side, but with dry to very dry fuels it may also be fairly efficient at producing ignitions. The recent northeast breeze pattern is fading away, and lighter local winds will be the rule the next few days. The big exception to this is short-lived erratic and gusty downdraft winds that will be found under the high based convective activity. The ridge will continue to shift eastward Wednesday and a second trough brushing the north, has a good chance of producing some lingering lightning chances in the north in the evening hours. The air mass should continue dry and warm Thursday-Friday, but be more stable aloft and with Lightning Activity Level all back to 1. There will be a minor cooling trends most areas, but inland surface temperatures will remain at or above early July normal.

WEATHER

WEATHER SYNOPSIS BY REGION:

SOUTHERN CALIFORNIA REGION:

A weak disturbance lifting into central Nevada will lead to scattered thunderstorms over the Great Basin today. Nearly all of these storms will remain north and east of the region, but a handful of storms may be possible this afternoon along the Crest north of Fresno County and in Mono County. (Yesterday, there were 4 lightning strikes in this area.) The storms will produce little rainfall as they move north at 10-15 mph. No thunderstorms are expected Wednesday or throughout the rest of the work week. Elsewhere, expect mostly sunny skies with very similar weather today and Wednesday. Morning stratus will continue to cover the coast and a few inland valleys which will give way to hazy afternoon sunshine. Highs will range from 70s along the coast to the 90s in the valleys. Some of the hottest temperatures this week will be in the San Joaquin Valley and the surrounding foothills where highs of 102-105 will be possible. A slow cooling trend is likely to begin Thursday and winds should remain light this week. This weekend, a surge of moisture from the southwest may creep into the southern part of the state, leading to isolated afternoon thunderstorms across the San Bernardino and Cleveland National Forests and the deserts south of I-15. The storms should be few in number and will produce spotty rainfall. The best chance of afternoon convection looks to be Saturday before the moisture departs the region by Monday.

WEATHER

Significant Weather

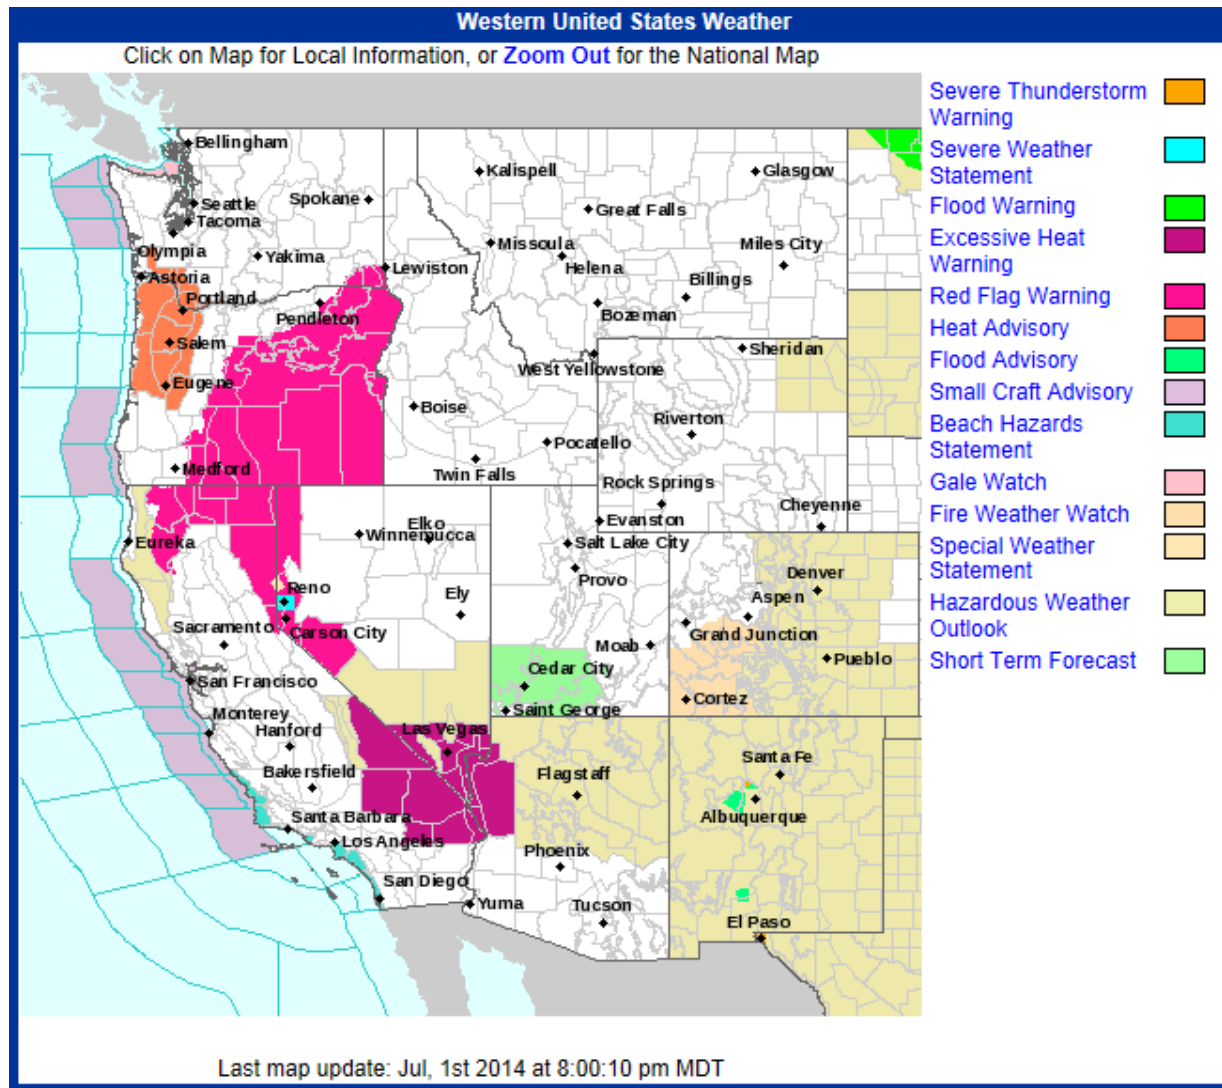

Heat:

- The California State Warning Center continues to monitor the weather statewide for heat or fire weather of concern and state power grid issues, and Cal OES Regions will remain in contact with Operational Areas (Counties) to monitor heat events which may impact local communities, facilities or agencies.

Fire Weather:

- Isolated to scattered thunderstorms are forecast to develop this afternoon, 07/01/14, into this evening across portions of Nevada, Placer, El Dorado, Alpine, Mono and Madera Counties. There will be a mix of wet and dry storms becoming drier through the afternoon. Strong wind gusts greater than 60 mph are possible. Lightning may create new fire starts, combined with strong outflow winds to produce rapid fire growth. Isolated, dry thunderstorms are also possible across portions of Shasta, Tehama, Glenn, Colusa and Lake Counties, Tuesday afternoon through Tuesday evening.

CAL OES ACTIVATIONS

Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is 0800-1700 hours.

Situational Summary

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue without substantial rainfall, severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

****As our state's rainy season comes to an end, it is highly unlikely that precipitation totals will increase significantly. This winter's below average rain and snowfall worsens conditions in this third straight dry year.***

The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

- The Taskforce continues to meet regularly to take actions that conserve water and coordinate state response to the drought.
- DWR has announced that water essential for health and safety will be delivered through the state water project. The current State Water Project Allocation is 5%.
- Cal OES continues to gather drought-related costs from state agencies and local governments.

CAL OES MISSIONS

New Cal OES Missions

- **2014-LAW-0966**, A SPOT Device activation in Tulare County the owner Mike Reed 55 year old male, son Brent 20 year old male, off duty Bakersfield PD, traveling on motorcycles, Tulare Co has been notified due to vehicles being involved. The Cal OES Law Duty Officer is coordinating resources.

Ongoing Cal OES Missions

- **2014-LAW-3961**, On behalf of Fairfield Police Department, Solano County Sheriff is requesting one Human Remains Detection (HRD) K9 to assist in a 30 year cold case homicide. The Cal OES Law Duty Officer is coordinating resources.
- **2014-LAW-2798**, El Dorado County is planning an in-county SAR exercise on 07/15/14 for their volunteers and have requested the assistance of the California National Guard (CNG) aviation assets to support the exercise. Elements of the exercise will include an orientation to the various CNG air assets (H72, H60 and CH47), hoist training, patient packaging for air evacuation and ground team insertion and extraction training.
- **2014-LAW-2483**, The 95th CST will provide area monitoring, secure communications, and WMD expertise for the IRL Racing Event at Sonoma Raceway August 22-24, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.
- **2014-LAW-2481**, The 95th CST will provide area monitoring, secure communications, and WMD expertise for the NHRA Racing Event at Sonoma Raceway July 25-27, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
